**Question #1:** Describe your website subject in detail:

What do you already know about it? (*50+ words*)

A topic that can bring social impact for good is better educational opportunities for minorities. Mainly black people because I feel that they are missing out on big opportunities because of the lack of resources that they possess because of the areas that they're in.

What do you need to find out? (*20+ words*)

I need to find out how much money is being poured into these low income area

Who is involved with this topic? (*20+ words*)

I'm not quite sure what this is trying to imply but I will say organizations involved are school board systems on how much money they put.

**Question #2:** Describe your proposed website in detail:

What is the purpose of your website? (*30+ words*)

My purpose for this is that kids of minorities get in trouble or get into things that they are not supposed to be in because of the lack of resources that they have.

Who is your intended user? (*30+ words*)

My Intended users are people of minorities to spread awareness to them showing we have to make this change because this will continue to increase crime rates, at the current rate it's going.

How will your user interact with your website? (*30+ words*)

My user will interact by learning crucial information and different ways they can help

> spread awareness. While showing ways they can help make that change.
